

Other Institutions' Pre-sessional English Language Courses

UAL accepts Pre-sessional course results from some other UK Universities.

Please contact us before joining to confirm if the Pre-sessional course you are planning to study is acceptable for UAL entry.

If we confirm that we can accept the Pre-sessional result, please note the following very important restrictions:

- The institution must provide your Pre-sessional results as equivalent to IELTS scores. These must include an Overall score, and the scores for the four component skills (Listening, Reading, Writing, Speaking).
- You must not take a 'combined CAS' to cover both the Pre-sessional and a main course at the institution where you are taking the Pre-sessional.
- If you study the Pre-sessional course on Short Term Study visa, you'll need to return to your home country to make the Tier 4 visa application for your UAL main course. As such you need to allow enough time to go home, obtain the visa and return by the latest enrolment date for the UAL course.
- If you study the Pre-sessional course on a Tier 4 student visa, you must pass the Pre-sessional course in order to have the option to apply for the UAL visa from inside the UK.
- You will need to evidence to us that you have met all conditions on your offer by the deadline in your offer letter. If your Pre-sessional course results are not available until after the deadline, we cannot guarantee that you will be able to join your UAL course.
